Subject: RE: Renewal Submission

Importance: High

Hello Todd,

I am in receipt of your request for renewal for the PPC-90, Allure 50, Absolute 63, and XXV-TC models. A complete submission must include an updated certification of conformity for each model line. **Please submit an updated CoC for each of the requests by May 5, 2021.** In addition, to expedite the process, please submit a copy of the certificate of compliance for each model. Please note: Before we process the renewal requests, a complete and thorough review of the test reports must be conducted. Any found deficiency(s) must be corrected before a renewal can be processed. If you have any questions, please let me know.

Rafael Sanchez, Ph.D.

Subject: RE: Renewal Submission

Good morning all,

Just following up on the questions below. Today we sent (4) renewal Applications to your facility via certified mail. Please let us know if there is anything we can do to speed up the process.

Thank you!

Subject: Renewal Submission

Rafael/Robert,

With knowing that your facility is closed how would you like us to submit renewals going forward? We have 4 due now and would like to get this taken care of in a timely fashion.

For Accentra-2 we submitted that one to you through an FTP site so you could received them while you're not at the physical location of the EPA building.

Please let us know how you would like to handle this.

Thank you!
